FEDERAL COMMUNICATIONS COMMISSION
OFFICE OF THE SECRETARY

Dear Chairman Kennard,

I am writing to you as a concerned citizen and supporter of micro-powered radio. It is my understanding that your agency is considering making rule changes that could re-legalize FM micro-radio broadcasting in some form. I believe that these rule changes are an important step that the Commission can take towards addressing the serious inequities in ownership and access that have long been the norm in American broadcast media.

I wish to express my support for the creation of a legal low-powered FM service that incorporates the following elements:

- 1) Non-commercial format
- 2) Local ownership
- 3) Fast, fair and efficient licensing
- 4) Self-regulation by the micro-radio community in terms of frequency allotment and content

Furthermore, I would like to encourage your Commission to drop its legal proceedings against the civil disobedience movement that has put this issue on the table. I believe that amnesty for the activists in the existing micro-radio community and the creation of a new LPFM service that meets the above criteria will be effective and appropriate gestures towards the creation of a diverse, accessible radio medium--an issue which I understand you are personally concerned with.

Sincerely,

Jeremy P. Myers

I listen to and support Free Radio Gainesville. It is a wonderful collective of citizens in the Gainesville area that supports its community. Their programming far exceeds the large corporate stations because it is community oriented.

Sincerely,

Nancy Goodhope

I adamantly support 94.7 FM radio.
It is an important and necessary
station that can only help our
community. His is the only radio station
worth listening to and acting on.
Useless too.

Sincerely,
